

**History:** Significant Historical Events in West Malling

Welcome to West Malling

| Vocabulary                                                                                  |                                                              |
|---------------------------------------------------------------------------------------------|--------------------------------------------------------------|
| town       | A place where people shop and live                           |
| historic   | It has been around for a long time                           |
| tower      | A tall building.                                             |
| church     | A religious building, often very old.                        |
| waterfall  | A place where water falls downwards over rock, cliff or wall |
| past       | Something that has already happened                          |
| events     | Things that have happened                                    |

Already, I can...

- ...talk about where people live.
- ...talk about things that have already happened.
- ...look at things in my local area.
- ... ask questions.

Can I...

- Can I match artefacts to different periods of time?
- Can I find any significant buildings and structures in West Malling?
- Can I create a timeline showing when significant structures were built?
- Can I recount real stories about events which took place in West Malling?
- Can I write about how life is different now than it was in the past?

My sticky knowledge...

St Leonard's Tower

High Street

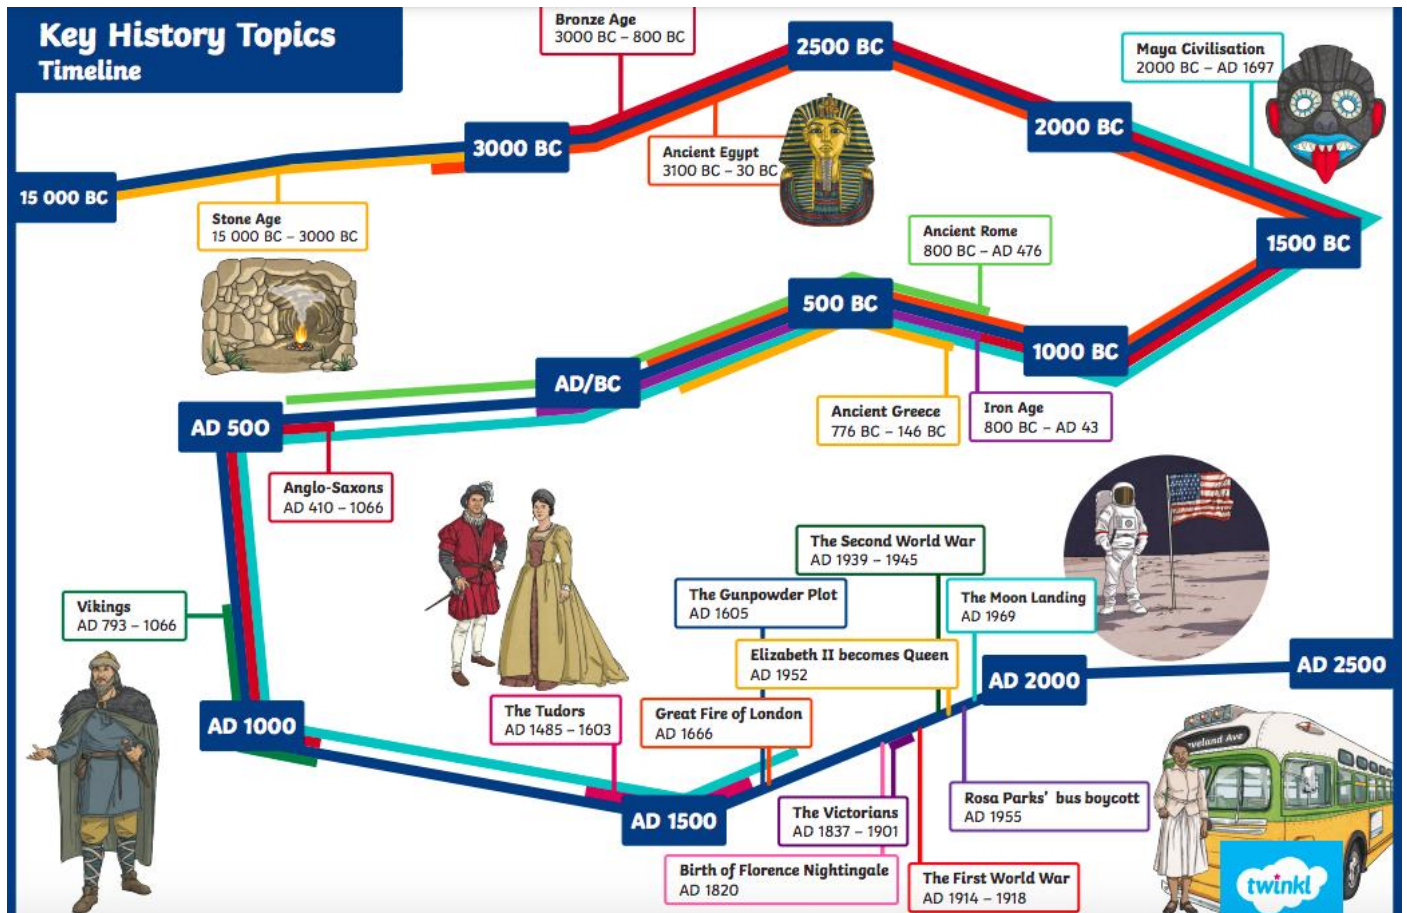

Malling Abbey

The Cascade

West Malling is almost 1000 year old! Lots has happened in 1000 years. From powerful people to poorly people, parks, churches, markets and manors, it's all in West Malling!

Can you find AD 1000?

Can you find AD 1700?
